GPD Global's commitment to producing world-class products using reliable and responsible manufacturing processes and materials is critical to its success.

All of the components and parts specified herein are in conformity with the relevant Union harmonization legislation and have been demonstrated to fulfill the requirements with reference to the harmonized or applied standard(s) as listed below:

Directive	Requirements	Harmonized standards
EMC Directive 2014/30/EU	Essential requirements set out in Annex I	EN 61000-6-2:2005
		EN 55011:2009+A1:2010
RoHS Directive 2011/65/EU	Restriction of substances as set out in Annex II	EN 50581:2012

In the manufacturing or assembly process for each product, we have not introduced or used any of the banned RoHS substances.

EU RoHS-II compliant is defined as meeting the following requirements:

- Content of Lead (Pb) is less than 1000 ppm, unless used under exemption
- Content of Mercury (Hg) is less than 1000 ppm.
- Content of Cadmium (Cd) is less than 100 ppm.
- Content of Hexavalent Chromium (CrVI) is less than 1000 ppm.
- Content of Poly Brominated BiPhenyls (PBB) or Poly Brominated DiPhenylethers (PBDE) is less than 1000 ppm.
- No intentional addition of Pb, Hg, Cd, CrVI, PBB, or PBDE

This declaration is based on GPD Global's conformity assessment procedures and supplier-provided data.
